1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Code 38640
Trade Name MICROPOSIT REMOVER 1112 A
Manufacturer/Supplier Shipley Company
Address 455 Forest St.
Marlborough, Massachusetts 01752
Phone Number (508) 481-7950
Emergency Phone Number (508) 481-7950
Chemtrec # (800) 424-9300
MSDS first issued 9 October 1996
MSDS data revised 1 February 1999
Prepared By: Amy C. Nichols
Local Sales Company Shipley Company, 455 Forest Street, Marlboro, MA 01752
(508-481-7950)

2. COMPOSITION/INFORMATION ON THE INGREDIENTS

Hazardous Components in Preparation for US

3. HAZARD IDENTIFICATION

Main Hazards - Corrosive - Combustible - Skin - Eye - Liver - Kidney - Respiratory System - Nervous System - Sensitizer - Blood
Routes of Entry Inhalation, ingestion, eye and skin contact, absorption.
Carcinogenic Status Not considered carcinogenic by NTP, IARC and OSHA
Target Organs - Eye - Skin - Liver - Kidney - Lung - Respiratory System - Nervous System - Blood
Health Effects - Eyes Liquid will cause severe conjunctival irritation, corneal damage, and may result in loss of vision. Vapor or mist will cause severe conjunctival irritation and corneal damage.
Health Effects - Skin Material will cause severe irritation and may cause chemical burns. Repeated and/or prolonged contact may lead to: drowsiness - kidney damage - allergic sensitization - hemolysis - central nervous system depression - reduction in the oxygen carrying capacity of the blood
Health Effects - Ingestion Material is toxic by skin absorption.
Swallowing may have the following effects:
- corrosion of mouth, throat and digestive tract
A large dose may have the following effects:
- liver damage - kidney damage - central nervous system depression - reduction in the oxygen carrying capacity of the blood
Health Effects - Inhalation Exposure to vapor or mist may have the following effects:
- severe irritation of nose, throat and respiratory tract
Exposure to mist at high concentrations may have the following effects:
- severe irritation to nose, throat and respiratory tract and possibly lung damage - liver damage - kidney damage - central nervous system depression - reduction in the oxygen carrying capacity of the blood

4. FIRST AID MEASURES

First Aid - Eyes Immediately flush the eye with plenty of water for at least 20 minutes, holding the eye open. Obtain medical attention immediately.
First Aid - Skin Immediately flush the skin with large quantities of water, preferably under a shower. Remove contaminated clothing while flushing skin. Continue washing for at least 15 minutes. Contaminated clothing should be washed or dry-cleaned before re-use. Obtain medical attention immediately.
First Aid - Ingestion Do not induce vomiting. Wash out mouth with water. Obtain medical attention immediately.
First Aid - Inhalation Remove from exposure. If there is difficulty in breathing, give oxygen. Obtain medical attention immediately.
Advice to Physicians Treat symptomatically. Treat skin burns conventionally.

5. FIRE FIGHTING MEASURES

Extinguishing Media Use dry chemical. Use water spray, fog or alcohol resistant foam.
Special Fire-Fighting Procedures This product may give rise to hazardous vapors in a fire. Vapors can travel a considerable distance to a source of ignition and result in flashback.
Unusual Fire & Explosion Hazards Pressure may build up in closed containers with possible liberation of combustible vapors.
Protective Equipment for Fire-Fighting Wear full protective clothing and self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Spill Procedures Contain and absorb using earth, sand or other inert material. Transfer into suitable containers for recovery or disposal.
Personal Precautions Wear appropriate protective clothing. Wear respiratory protection.
Environmental Precautions Prevent the material from entering drains or water courses. Advise Authorities if spillage has entered water course or sewer or has contaminated soil or vegetation.

7. HANDLING AND STORAGE

Handling Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Emergency shower and eye wash facilities should be readily available. Avoid inhaling vapor. Keep container tightly closed when not in use.
Storage
Store in original containers. Storage area should be:
- cool
- dry
- well ventilated
- out of direct sunlight
- away from incompatible materials

Other
None known.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Standards

diethylene glycol n-butyl ether
None assigned.
dipropylene glycol monomethyl ether
ACGIH: TLV 100ppm (600mg/m3) 8h TWA. OSHA: PEL 100ppm (600mg/m3) 8h TWA.
ethylene glycol n-butyl ether
ACGIH: TLV 25ppm (120mg/m3) 8h TWA. OSHA: PEL 50ppm (240mg/m3) 8h TWA. Can be absorbed through skin.
furfuryl alcohol
ACGIH: TLV 10ppm (40mg/m3) 8h TWA. ACGIH: STEL 15ppm (60mg/m3) 15min TWA. Can be absorbed through skin. OSHA: PEL 50ppm (200mg/m3) 8h TWA. UK EH40: OES 6ppm (20mg/m3) 8h TWA. UK EH40: OES 15ppm (60mg/m3) 15min TWA. Can be absorbed through skin.
monoethanolamine
ACGIH: TLV 3ppm (7.5mg/m3) 8h TWA. ACGIH: STEL 6ppm (15mg/m3) 15min TWA. OSHA: PEL 3ppm (6mg/m3) 8h TWA.

Engineering Control Measures
Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.

Respiratory Protection
Respiratory protection if there is a risk of exposure to high vapor concentrations. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

Hand Protection
Butyl rubber or nitrile gloves.

Eye Protection
Chemical goggles and face shield.

Body Protection
- rubber apron

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State
Liquid

Color
Pale Yellow

Odor
Organic

VOC (g/l)
931.04

Specific Gravity
1.0 - 1.1

pH
>12

Boiling Range/Point (°C/F)
100 / 212

Flash Point (PMCC) (°C/F)
82 / 179

Explosion Limits (%)
2-butoxyethanol 1.1% furfuryl alcohol 1.8% dipropylene glycol methyl ether 1.0%

Solubility in Water
Completely soluble.

Vapor Density (Air = 1)
Heavier than air.

Evaporation Rate
Not applicable.

Vapor Pressure
- ethanalamine: 0.4 mmHg at 20 °C.
ethylene glycol n-butyl ether: 0.6 mmHg at 20 °C.
dipropylene glycol methyl ether: <0.1 mmHg at 20 °C.
furfuryl alcohol: 1 mmHg at 32 °C.

10. STABILITY AND REACTIVITY

Stability
Stable under normal conditions.

Conditions to Avoid
- contact with incompatible materials

Incompatibilities
- Acids - Oxidizing agents

Hazardous Polymerization
Will not occur.

Hazardous Decomposition Products
- oxides of nitrogen - carbon monoxide - Carbon Dioxide

11. TOXICOLOGICAL INFORMATION

Acute Data
Ethylene glycol n-butyl ether: Oral LD50 (rat) 470mg/kg. Oral LD50 (guinea pig) 1.400mg/kg. Dermal LD50 (rabbit) 220mg/kg. Dermal LD50 (guinea pig) >2000mg/kg. Inhalation LC50 (mouse) 700ppm 7h. Inhalation LC50 (rat) 450ppm 4h.
Diethylene glycol n-butyl ether: Oral LD50 (rat) 5600mg/kg. Dermal LD50 (rat) 4000mg/kg.

Monooethanolamine: Oral LD50 (rat) 1000mg/kg.

Chronic/Subchronic Data
No adverse effects are expected.

Genotoxicity
Ethylene glycol n-butyl ether: In vitro tests were inconclusive. Animal tests negative.

Reproductive/Developmental Toxicity
Experimental studies in animals have provided some evidence of embryo/fetotoxicity and birth defects only at doses producing marked maternal toxicity.

Additional Data
None.

12. ECOLOGICAL INFORMATION

Mobility
The product will dissolve rapidly in water. The product is poorly absorbed onto soils or sediments. The product will leach into soil.

Persistence/Degradability
The product is expected to be readily biodegradable.

Bio-accumulation
Product is not expected to bioaccumulate.
Ecotoxicity

The product is rated as practically non-toxic to aquatic species.

Monooethanolamine: Tests on the following species gave a 96h LC50 of 140mg/litre:
- daphnia
Tests on the following species gave a 96h LC50 of 150mg/litre:
- rainbow trout

Ethylene glycol n-butyl ether: Tests on the following species gave a 96h LC50 of >1,000mg/litre:
- rainbow trout
Tests on the following species gave a 96h LC50 of 127mg/litre:
- bluegills

Diethylene glycol n-butyl ether: Tests on the following species gave a 96h LC50 of 2,850mg/litre:
- daphnia
Tests on the following species gave a 96h LC50 of 1,150mg/litre:
- guppies

Dipropylene glycol methyl ether: Tests on the following species gave a 96h LC50 of 1,919mg/litre:
- daphnia
Tests on the following species gave a 96h LC50 of >10,000mg/litre:
- fathead minnows

Furfuryl alcohol: Tests on the following species gave a 96h LC50 of 32mg/litre:
- fathead minnows

13. DISPOSAL CONSIDERATIONS

Product Disposal
Dispose of in accordance with all applicable local and national regulations.

Container Disposal
Labels should not be removed from containers until they have been cleaned. Empty containers may contain hazardous residues.
Dispose of containers with care.

14. TRANSPORT INFORMATION

DOT Ground:
Ethanolamine Solution

UN Proper Shipping Name
Ethanolamine Solution

UN Class
(8) Corrosive

UN Number
UN 2491

UN Packaging Group
III

N.O.S. 1:
Not applicable.

N.O.S. 2:
Not applicable.

Subsidiary Risks
None.

ADR/RID Substance Identification Number
CLASS 8 - 54(c)

CERCLA RQ
None.

Marine Pollutant
None.

15. REGULATORY INFORMATION

TSCA Listed
All components of this product are listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory) or are exempted from listing because a Low Volume Exemption has been granted in accordance with 40 CFR 723.50.

TSCA Exemptions

TSCA Sec.12(b) Export Notification
U.S. exporters of this product are required to notify the U.S. Environmental Protection Agency (EPA) that a regulated substance(s) is leaving the U.S. market. This product contains the following substance(s) which are subject to Section 12(b) export notification:
- Diethylene glycol n-butyl ether (CAS# 112-34-5)

WHMIS Classification
E, D.2.B.

MA Right To Know Law
All components have been checked for inclusion on the Massachusetts Substance List (MSIL). Those components present at the de minimus concentration have been identified in the hazardous ingredients section of the MSDS.

California Proposition 65
This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.

SARA TITLE III-Section 311/312 Categorization (40 CFR 370)
Immediate, delayed, flammability hazard

SARA TITLE III-Section 313 (40 CFR 372)
This product contains a chemical which is listed in Section 313 at or above de minimis concentrations. The following listed chemicals are present: (quantity present is found elsewhere on this MSDS)
- 2-butoxyethanol as glycol ethers (111-76-2)
- Diethylene glycol n-butyl ether as glycol ethers (112-34-5)

16. OTHER INFORMATION

NFPA Rating- FIRE
2

NFPA Rating- HEALTH
2

NFPA Rating- REACTIVITY
1

NFPA Rating- SPECIAL
None.
