3. HAZARD IDENTIFICATION

Main Hazards: Irritant - Skin - Eye - Nervous System - Respiratory System

Routes of Entry: Inhalation, ingestion, eye and skin contact, absorption.

Carcinogenic Status: Not considered carcinogenic by NTP, IARC and OSHA

Target Organs: Skin - Eye - Nervous System - Respiratory System

Health Effects - Eyes: Liquid, mist or vapor will cause conjunctival irritation and possibly corneal damage. Systemic effects similar to those resulting from skin contact may occur. Effects may be delayed for several hours.

Health Effects - Skin: Material may cause irritation. Repeated or prolonged contact may cause chemical burns. Abnormal conditions such as prolonged contact or absorption through burns or open wounds may have the following effects: - neurotoxicity - muscle spasms - convulsions - death (See Section 11)

Health Effects - Ingestion: Swallowing may have the following effects:
- irritation of mouth, throat and digestive tract
- systemic effects similar to those resulting from skin contact

Health Effects - Inhalation: Exposure to vapor or mist may have the following effects:
- irritation of nose, throat and respiratory tract

4. FIRST AID MEASURES

First Aid - Eyes: Immediately flush the eye with plenty of water for at least 20 minutes, holding the eye open. Obtain medical attention immediately.

First Aid - Skin: Wash skin with water. Remove contaminated clothing as washing proceeds. Continue washing for at least 20 minutes. Obtain medical attention if blistering occurs or redness persists. Obtain medical attention if this product contacted abraded skin or open wounds.

First Aid - Ingestion: Wash out mouth with water. Do not induce vomiting. Obtain medical attention.

First Aid - Inhalation: Remove from exposure. If there is difficulty in breathing, give oxygen. Seek medical attention if symptoms persist.

Advice to Physicians: Treat symptomatically. Support respiration and blood pressure. Control seizures. Effects believed to be reversible if hypoxia and prolonged seizures are prevented.

5. FIRE FIGHTING MEASURES

Extinguishing Media: Use water spray, foam, dry chemical or carbon dioxide.

Special Fire-Fighting Procedures: None.

Unusual Fire & Explosion Hazards: None known.

Protective Equipment for Fire-Fighting: No special fire-fighting clothing required.

6. ACCIDENTAL RELEASE MEASURES

Split Procedures: Spills may be absorbed with appropriate absorbent material for alkaline materials.

Personal Precautions: Wear appropriate protective clothing.

Environmental Precautions: Prevent the material from entering drains or water courses.

7. HANDLING AND STORAGE

Handling: Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Keep container tightly closed when not in use.

Storage: Store in original containers. Storage area should be:
- cool - dry - well ventilated - away from incompatible materials

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Standards: tetramethylammonium hydroxide - None assigned.

Engineering Control Measures: Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.

Respiratory Protection: Respiratory protection not normally required. Respiratory protection if there is a risk of uncontrolled exposure to vapor. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.
9. PHYSICAL AND CHEMICAL PROPERTIES

</tr>
<tr>
<td>Evaporation Rate</td>
<td>Slower than other</td>
</tr>
<tr>
<td>Vapor Pressure</td>
<td>Equivalent to water.</td>
</tr>
</tbody>
</table>

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions.
Conditions to Avoid:
- contact with incompatible materials
Incompatibilities:
- Acids - Strong oxidizing agents
Hazardous Polymerization: Will not occur.
Hazardous Decomposition Products:
- methanol - triethylamine - oxides of carbon - oxides of nitrogen

11. TOXICOLOGICAL INFORMATION

Acute Data: Tetramethylammonium hydroxide:
2.14% (by weight): A single 4h semi-occlusive application to intact rabbit skin produced no signs of dermal irritation. No clinical signs of toxicity were observed during a 48h observation period. Testing complied with OECD Section 404 and EPA TSCA 40 CFR Part 798 standard protocols. DOT Corrosivity testing conducted on stainless steel and laboratory animals determined that this product is not corrosive.

Chronic/Subchronic Data: No relevant studies identified.
Genotoxicity: No relevant studies identified.
Reproductive/Developmental Toxicity: No relevant studies identified.
Additional Data: Tetramethylammonium hydroxide:
3.5% (by weight): A single 4h semi-occlusive application to intact rabbit skin produced minimal signs of irritation (mean scores for erythema or edema less than 2). No clinical signs of toxicity were observed during a 48h observation period. Testing complied with OECD Section 404 and EPA TSCA 40 CFR Part 798 standard protocols.

<5% (w/v): Repeated application to rat skin for 6 h/d, 5 d/wk, for 4 weeks did not produce systemic toxicity. Test material was applied continuously through a reservoir affixed to shaved animal backs.

>=5% (w/v): Repeated application to rat skin for 6h/d,5 d/wk, for 4 weeks produced rapid systemic toxicity with the following effects:
- convulsions - death
Effects were noted after 2 hours of initial application. Test material was applied continuously through a reservoir affixed to shaved animal backs.

100% (by weight): Dermal LD50 (guinea pig) 25mg/kg.

12. ECOLOGICAL INFORMATION

Mobility: The product will dissolve rapidly in water. The product will leach into soil.
Persistence/Degradability: If neutralized, this material may be biodegradable.
Bio-accumulation: If neutralized, this material may be biodegradable.
Ecotoxicity: Do not discharge directly to surface water.

Tetramethylammonium hydroxide: A pH neutralized solution has been shown to be toxic to aquatic organisms. Tests on the following species gave a 96h LC50 of 0.07-1.2mg/litre:
- ceriodaphnia dubia (water flea)

13. DISPOSAL CONSIDERATIONS

Product Disposal: Do not discharge directly to surface water. Dispose of in accordance with all applicable local and national regulations.
Container Disposal: Labels should not be removed from containers until they have been cleaned. Empty containers may contain hazardous residues. Dispose of containers with care.

14. TRANSPORT INFORMATION

DOT Ground: Not Regulated
UN Proper Shipping Name: None.
UN Class: None.
UN Number: None.
UN Packaging Group: None.
N.O.S. 1: Not applicable.
N.O.S. 2: Not applicable.
Subsidiary Risks: None.
ADR/RID Substance Identification Number: None assigned.
### REGULATORY INFORMATION

**TSCA Listed**

All components of this product are listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory) or are exempted from listing because a Low Volume Exemption has been granted in accordance with 40 CFR 723.50. This product is not subject to a Section 5(e) Consent Order or Significant New Use Rule (SNUR).

**TSCA Exemptions**

- **TSCA Sec.12(b) Export Notification**
  
  This product does not contain any substances subject to Section 12(b) export notification.

- **MA Right To Know Law**
  
  All components have been checked for inclusion on the Massachusetts Substance List (MSL). Those components present at the de minimus concentration have been identified in the hazardous ingredients section of the MSDS.

- **California Proposition 65**
  
  This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.

**WHMIS Classification**

- **D.2.B**

**MA Right To Know Law**

- **D.2.B**

**SARA TITLE III-Section 311/312 Categorization (40 CFR 370)**

- **Immediate health hazard**

**SARA TITLE III-Section 313 (40 CFR 372)**

- This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.

### OTHER INFORMATION

**NFPA Rating - FIRE**

- 0

**NFPA Rating - HEALTH**

- 3

**NFPA Rating - REACTIVITY**

- None.
