1. PRODUCT AND COMPANY IDENTIFICATION

XP-3636 OPTO DEVELOPER

Supplier: Shipley Company
455 Forest Street
Marlborough, MA  01752  United States of America

Revision date: 07/17/2003

For non-emergency information contact: 508-481-7950

Emergency telephone number
Chemtrec 800-424-9300
Shipley emergency 508-481-7950

3. HAZARDS IDENTIFICATION

Emergency Overview

Appearance
Form: liquid
Colour: clear
Odour: Odorless

Hazard Summary: DANGER!
Corrosive alkaline liquid and vapor causes severe skin and eye burns. Causes respiratory irritation. Onset of symptoms may be delayed.

Potential Health Effects
Primary Routes of Entry: Inhalation, ingestion, eye and skin contact.

Eyes: Will cause severe conjunctival irritation, corneal damage, and may result in loss of vision.

Skin: Material will cause chemical burns.

Ingestion: Swallowing may have the following effects:
corrosion of mouth, throat and digestive tract

**Inhalation:** Inhalation may have the following effects:
severe irritation of nose, throat and respiratory tract
Higher concentrations may have the following effects:
severe irritation to nose, throat and respiratory tract and possibly lung damage

**Target Organs:** Eye
Respiratory System
Skin

**Carcinogenicity**
Not considered carcinogenic by NTP, IARC, and OSHA

### 4. FIRST AID MEASURES

**Inhalation:** Remove from exposure. If there is difficulty in breathing, give oxygen. Immediate medical attention is required

**Skin contact:** Immediately flush the skin with large quantities of water, preferably under a shower. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. Continue washing for at least 20 minutes. Contaminated clothing should be washed or dry-cleaned before re-use. Immediate medical attention is required

**Eye contact:** Immediately flush the eye with plenty of water for at least 20 minutes, holding the eye open. Immediate medical attention is required

**Ingestion:** Do not induce vomiting. Wash out mouth with water. Have victim drink 1-3 glasses of water to dilute stomach contents. Immediate medical attention is required. Never administer anything by mouth if a victim is losing consciousness, is unconscious or is convulsing.

**Notes to physician**
Treat symptomatically. Treat skin burns conventionally.

### 5. FIRE-FIGHTING MEASURES

**Suitable extinguishing media:** Use water spray, foam, dry chemical or carbon dioxide.

**Specific hazards during fire fighting:** This product may give rise to hazardous vapors in a fire.

**Special protective equipment for fire-fighters:** Wear full protective clothing and self-contained breathing apparatus.

**Further information:** May emit corrosive vapor or mist.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions**
Wear appropriate protective clothing.
Wear respiratory protection.
Material can create slippery conditions.
Environmental precautions
Prevent the material from entering drains or water courses.
Do not discharge directly to a water source.
Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

Methods for cleaning up
Spills may be absorbed with appropriate absorbent material for alkaline materials.
Transfer into suitable containers for recovery or disposal.

7. HANDLING AND STORAGE

Handling
Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Avoid breathing vapor. Keep container tightly closed.
Further information on storage conditions: Practice good personal hygiene to prevent accidental exposure.

Storage
Storage conditions: Store in original container. Storage area should be: cool dry well ventilated out of direct sunlight away from incompatible materials

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limit(s)
Exposure limits are listed below, if they exist.

<table>
<thead>
<tr>

</table>

Eye protection: Chemical goggles and face shield.

Hand protection: Neoprene gloves. Other chemical resistant gloves may be recommended by your safety professional. Gauntlet sleeves.

Skin and body protection: rubber or neoprene apron

Respiratory protection: Respiratory protection if there is a risk of exposure to high vapor concentrations. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

Engineering measures: Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.
9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance**
- **Form**: liquid
- **Colour**: clear
- **Odour**: Odorless

**pH**: 14.0

**Boiling point/range**: 100 °C (212.00 °F)

**Vapour pressure**: Similar to water

**Relative vapour density**: Heavier than air.

**Water solubility**: completely soluble

**Relative density**: 1.20 at 25.00 °C (77.00 °F)

**Evaporation rate**: Slower than ether

**VOC's**: 0.000 g/l

**NOTE**: The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY

**Hazardous reactions**: Stable under normal conditions.

**Conditions to avoid**: contact with incompatible materials

**Materials to avoid**: acids, Aromatic hydrocarbons, aldehydes, aluminum, Tin, zinc alloys of these metals

**Hazardous decomposition products polymerization**: Will not occur.

11. TOXICOLOGICAL INFORMATION

*Toxicological information on this product or its components appear in this section when such data is available.*

Component: **Sodium hydroxide**
- **Acute oral toxicity**: LD50 rat 4,090 mg/kg

Component: **Sodium hydroxide**
- **Acute oral toxicity**: LDLo rat 500 mg/kg

Component: **Sodium hydroxide**
- **Acute dermal toxicity**: LD50 rabbit 1,350 mg/kg
12. ECOLOGICAL INFORMATION

Ecotoxicological information on this product or its components appear in this section when such data is available.

**Sodium hydroxide**

**Ecotoxicity effects**

**Toxicity to fish**   
LC50  
18 mg/l  

**Toxicity to aquatic invertebrates**  
EC50 Daphnia magna  
25 mg/l  

13. DISPOSAL CONSIDERATIONS

**Environmental precautions:** Prevent the material from entering drains or water courses. Do not discharge directly to a water source. Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

**Disposal**

Dispose in accordance with all local, state (provincial), and federal regulations. Under RCRA, it is the responsibility of the product's user to determine at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This is because the product uses, transformations, mixtures, processes, etc. may render the resulting materials hazardous.

Do not remove label until container is thoroughly cleaned. Empty containers may contain hazardous residues. This material and its container must be disposed of in a safe way.

14. TRANSPORT INFORMATION

**DOT**

- **Proper shipping name:** Sodium hydroxide solution
- **UN-No:** UN 1824
- **Class:** 8
- **Packing group:** III

**IMO/IMDG**

- **Proper shipping name:** SODIUM HYDROXIDE SOLUTION
- **UN-No:** UN 1824
- **Class:** 8
- **Packing group:** III

15. REGULATORY INFORMATION

**SARA TITLE III: Section 311/312 Categorizations (40CFR370):** Immediate health hazard

**SARA TITLE III: Section 313 Information (40CFR372)**

This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.
US. Toxic Substances Control Act (TSCA)  This product contains at least one component that is not listed (and is not excluded from listing) on the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory, and therefore can be used only for research and development purposes under the conditions described in the Code of Federal Regulations at 40 CFR 720.36.

California (Proposition 65)
This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.
