1. PRODUCT AND COMPANY IDENTIFICATION

UV(TM) 6-0.7 Positive DUV Photoresist

Revision date: 09/20/2006

Supplier
Rohm and Haas Electronic Materials LLC
455 Forest Street
Marlborough, MA 01752 United States of America

For non-emergency information contact: 508-481-7950

Emergency telephone number
Chemtrec 800-424-9300
Rohm and Haas Emergency 215-592-3000

2. COMPOSITION/ INFORMATION ON INGREDIENTS

3. HAZARDS IDENTIFICATION

Emergency Overview

Appearance
Form liquid
Colour clear
Odour Sweet odor

Hazard Summary

CAUTION!
Combustible liquid and vapor. Causes irritation to eyes, nose, and respiratory tract. Prolonged, repeated contact, inhalation, ingestion, or absorption through the skin, may cause adverse effects to internal organ systems.

Potential Health Effects
Primary Routes of Entry: Inhalation, ingestion, eye and skin contact, absorption.

Eyes: May cause pain, transient irritation and superficial corneal effects.

Skin: Material may cause irritation.
Prolonged or repeated exposure may have the following effects:
central nervous system depression
drowsiness
defatting of skin leading to irritation and dermatitis

Ingestion: Swallowing may have the following effects:
irritation of mouth, throat and digestive tract
Repeated doses may have the following effects:
central nervous system depression
drowsiness

Inhalation: Inhalation may have the following effects:
irritation of nose, throat and respiratory tract
Higher concentrations may have the following effects:
systemic effects similar to those resulting from ingestion

Target Organs: Eye
Respiratory System
Skin
nervous system

Carcinogenicity
Not considered carcinogenic by NTP, IARC, and OSHA

4. FIRST AID MEASURES

Inhalation: Remove from exposure. If there is difficulty in breathing, give oxygen. Seek medical attention if symptoms persist.

Skin contact: Wash skin with water. Continue washing for at least 15 minutes. Obtain medical attention if blistering occurs or redness persists.

Eye contact: Immediately flush the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

Ingestion: Wash out mouth with water. Have victim drink 1-3 glasses of water to dilute stomach contents. Induce vomiting if person is conscious. Immediate medical attention is required. Never administer anything by mouth if a victim is losing consciousness, is unconscious or is convulsing.

Notes to physician
Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Flash point 48 °C (119.8 °F)
Lower explosion limit no data available
Upper explosion limit no data available
6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Wear suitable protective clothing.
Wear respiratory protection.
Eliminate all ignition sources.

Environmental precautions
Prevent the material from entering drains or water courses.
Do not discharge directly to a water source.
Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

Methods for cleaning up
Contain spills immediately with inert materials (e.g., sand, earth).
Transfer into suitable containers for recovery or disposal.
Finally flush area with plenty of water.

7. HANDLING AND STORAGE

Handling
Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Keep container tightly closed.
Further information on storage conditions: Keep away from heat, sparks, flame, and other sources of ignition. Practice good personal hygiene to prevent accidental exposure.

Storage
Storage conditions: Store in original container. Keep away from heat and sources of ignition. Storage area should be: cool dry well ventilated out of direct sunlight

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limit(s)
Exposure limits are listed below, if they exist.

</table>
**Eye protection:** Goggles

**Hand protection:** Butyl rubber gloves. Other chemical resistant gloves may be recommended by your safety professional.

**Skin and body protection:** Normal work wear.

**Respiratory protection:** Respiratory protection if there is a risk of exposure to high vapor concentrations. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

**Engineering measures:** Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.

**Component:** Ethyl lactate

**Vapour pressure** 1.7 mmHg at 20 °C (68 °F)

**Component:** Ethyl lactate

**Vapour pressure** 0.4999 kPa at 25 °C (77 °F)

**Relative vapour density** Heavier than air.

**Water solubility** partly soluble

**Relative density** 1.04

**Evaporation rate** Slower than ether

**VOC’s** 788.6 - 940.2 g/cm3

**NOTE:** The physical data presented above are typical values and should not be construed as a specification.

### 10. STABILITY AND REACTIVITY

**Hazardous reactions** Stable under normal conditions.

**Conditions to avoid** contact with incompatible materials  High temperatures  Static discharge
Materials to avoid: Oxidizing agents, Strong acids, Strong bases

Hazardous decomposition products: Carbon monoxide, carbon dioxide, oxides of sulfur, nitrogen oxides (NOx), hydrogen iodide, Hydrogen fluoride, Acrylics, polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Component: Ethyl lactate
   Acute oral toxicity: LD50 rat >2,000 mg/kg

Component: Aromatic Acrylic Polymer
   Acute oral toxicity: LD50 rat > 5,000 mg/kg

Component: Aromatic Sulfur Compound
   Acute oral toxicity: LD50 rat > 5,000 mg/kg

Component: Organic Siloxane Surfactant
   Acute oral toxicity: LD50 rat > 5,000 mg/kg

Component: Ethyl lactate
   Acute inhalation toxicity: LC50 rat >5,400 mg/m3

Component: Ethyl lactate
   Acute dermal toxicity: LD50 rat >5,000 mg/kg

Component: Aromatic Acrylic Polymer
   Acute dermal toxicity: LD50 rat > 5,500 mg/kg

Component: Aromatic Sulfur Compound
   Acute dermal toxicity: LD50 rabbit > 2,000 mg/kg

Component: Organic Siloxane Surfactant
   Acute dermal toxicity: LD50 rabbit > 2,000 mg/kg

Component: Ethyl lactate
   Skin irritation: A single application to rabbit skin produced mild irritation.

Component: Aromatic Acrylic Polymer
   Skin irritation: A single application to rabbit skin produced no irritation.

Component: Organic Siloxane Surfactant
   Skin irritation: A single application to rabbit skin produced mild irritation.

Component: Ethyl lactate
   Eye irritation: Single application to the rabbit eye produced conjunctival irritation.

Component: Aromatic Acrylic Polymer
   Eye irritation: Single application to the rabbit eye produced mild irritation.
Component: **Organic Siloxane Surfactant**
**Eye irritation** Single application to the rabbit eye produced no signs of ocular irritation.

Component: **Ethyl lactate**
**Toxicity to reproduction**
No adverse reproductive effects were observed in experimental animals.

Component: **Aromatic Sulfur Compound**
**Mutagenicity**
No mutagenic activity was observed in bacterial cells.

### 12. ECOLOGICAL INFORMATION

Ecotoxicological information on this product or its components appear in this section when such data is available.

**Ethyl lactate**

- **Ecotoxicity effects**
  - **Toxicity to aquatic invertebrates**
    - EC50 *Daphnia magna* 48 h
    - 683 mg/l

### 13. DISPOSAL CONSIDERATIONS

**Environmental precautions:** Prevent the material from entering drains or water courses. Do not discharge directly to a water source. Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

**Disposal**

Dispose in accordance with all local, state (provincial), and federal regulations. Incineration is the recommended method of disposal for containers. Under RCRA, it is the responsibility of the product's user to determine at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This is because the product uses, transformations, mixtures, processes, etc. may render the resulting materials hazardous. Do not remove label until container is thoroughly cleaned. Empty containers may contain hazardous residues. This material and its container must be disposed of in a safe way.

### 14. TRANSPORT INFORMATION

**DOT**

Not regulated per 49CFR 173.150(f)(2)

**IMO/IMDG**

- **Proper shipping name** RESIN SOLUTION
- **UN-No.** UN 1866
- **Class** 3
- **Packing group** III

*Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations*
15. REGULATORY INFORMATION

SARA TITLE III: Section 311/312 Categorizations (40CFR370): Immediate, delayed, flammability hazard

SARA TITLE III: Section 313 Information (40CFR372)
This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.

US. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D):
US. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D)
This product does not contain any substances subject to Section 12(b) export notification.

US. Toxic Substances Control Act (TSCA) All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

California (Proposition 65)
This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.
