

HMIS Index: 0 - Minimal 1 - Slight 2 - Moderate 3 - Serious 4 - Severe	MATERIAL SAFETY DATA SHEET iCue® 5001 Aqueous Dispersion	HMIS Rating: 1 - Health 0 - Flammability 0 - Reactivity B - PPE
--	--	--

MSDS has been prepared in accordance with ANSI standard Z400.1-1993, EC Directive 91/155/EEC and 93/112/EEC.

SECTION I - Chemical Product and Company Identification

Trade Name iCue® 5001 Aqueous Dispersion	Product Type Aluminum Oxide Aqueous Dispersion	Date Revised: October 28, 2003 Date Issued: July 31 st , 2000	Prepared By: Michael Trembley Title: Product Stewardship Mgr.
--	--	---	--

Manufacturer/Supplier

Cabot Microelectronics Corporation 870 Commons Drive Aurora, IL 60504 Unites States	Cabot Microelectronics Corporation Barry Site, Sully Moors Rd. Sully, South Glamorgam CF64 Wales, UK	Cabot Microelectronics Corporation 1287-19 Oaza-Kitakoyama Geino-cho-Age-gun Mie-Ken 514-2213 Japan

---	--	---

SECTION II - Composition/Information on Ingredients

Substance Trivial Name iCue® 5001 Aqueous Dispersion		Formal Name Aqueous Dispersion		Chemical Family Not Applicable	
Component Aluminum Oxide De-Ionized Water Proprietary Ingredients	CAS No. 1344-28-1 7732-18-5 Proprietary	EINECS # 215-691-6 231-791-2 Proprietary	% by Weight 2-5 93-96 <2	EU Classification Not classified	

Trade Names and Synonyms
 iCue® 5001 Aqueous Dispersion

Material Uses
 Used as a polishing slurry in the semi-conductor industry and other applications.

SECTION III - Hazards Identification

Emergency Overview:

Milky white slurry.

Caution: May cause skin and eye irritation. Do not breath dust from dried product.

Potential Environmental Effects: None expected.

Potential Health Effects

Routes of Exposure: Eye, Skin

Eye: May cause slight irritation.

Skin: May cause slight irritation.

Ingestion: May be harmful if swallowed.

Inhalation: Due to this materials liquid dispersion state, it is not expected to be a significant inhalation hazard. Dried product may cause irritation to the respiratory tract.

Chronic Effects: Not listed as a carcinogen by IARC, NTP, Z List or OSHA.

Teratology: None identified

Reproduction Info.: None identified

Target Organs: None identified

Medical Conditions Aggravated: None Identified

SECTION IV - First Aid Measures

Inhalation: Remove to fresh air. If breathing is difficult, give oxygen. If symptoms develop, seek medical attention. If not breathing, give artificial respiration.

Ingestion: Do not induce vomiting. If conscious and alert, rinse mouth with water. If symptoms develop seek medical attention.

Eyes: Immediately flush lightly with plenty of water for at least 15 minutes. If symptoms develop seek medical attention.

Skin: Flush affected area with water. Remove contaminated clothing. If symptoms develop seek medical attention.

Advice to Physicians

Treat symptomatically if present.

SECTION V - Fire Fighting Measures

Extinguishing Media

Use extinguishing media for surrounding fire.

Unsuitable Media

Not Applicable

Flash Point

Not Applicable

Flash Point Method

Not Applicable

Lower Explosive Limit

Not Applicable

Upper Explosive Limit

Not Applicable

Ignition in Air

Not Defined

Flammability Classification

Not Applicable

Flame Propagation in Air

Not Applicable

Fire Fighting Procedure

No special fire fighting procedures.

Combustion Hazards

Not Applicable

Protective Equipment

Standard personal protective equipment for structural fire fighting.

Unusual Fire Hazards

None expected.

Dust Explosion Potential

Not Applicable

Sensitivity to Impact Not Applicable	Static Discharge Effects Not Applicable
--	---

SECTION VI - Accidental Release Measures

Personal Precautions

Safety glasses or goggles, impervious gloves and protective clothing recommended when handling. If spilled material dries, creating airborne dust concentrations that exceed the applicable exposure limit, then an approved respirator for dust/fumes is recommended.

Spill Cleanup Measures

Absorb with inert material (e.g., dry sand or earth), then place in chemical waste container. Wear appropriate PPE. See Section 8.

Environmental Precautions

Do not allow material to surface waters.

SECTION VII - Handling and Storage

Handling & Storage Precautions

Handling: Avoid skin and eye contact. Avoid generating aerosols or mists. Do not breath aerosols, mists or dust from dried product.

Storage: KEEP FROM FREEZING.

Hygienic Practices

Avoid contact with skin. Wash exposed skin frequently. Good practices should be followed in regard to work clothing.

Special Precautions

None

SECTION VIII - Exposure Controls/Personal Protection

Inhalation Standards

TLV (U.S.) = 10 mg/m³ total dust for particles not otherwise classified.

PEL (U.S.) = 15 mg/m³ for total dust. 5 mg/m³ for alumina.

MAK (Germ.) = 4 mg/m³ inhalable dust.

OES (U.K.) = 6 mg/m³ total inhalable, 2.4 mg/m³ respirable dust.

Australia (TLV) = 10 mg/m³ total dust containing no asbestos.

Eye-Face Protection

Safety glasses with side shields or goggles recommended to prevent eye contact

Skin Protection

Impervious gloves.

Protective Clothing

Wear appropriate clothing to minimize skin contact.

Respiratory Protection

None normally needed unless mists or dust are generated.

An approved air-purifying respirator (APR) for dusts/mists may be appropriate to control exposure. Protection provided by air-purifying respirators is limited. Use a positive-pressure, air supplied respirator if there is any potential for uncontrolled release, exposure levels are not known, or any circumstances where air-purifying respirators may not provide adequate protection. Use of respirators must include a complete respiratory protection program in accordance with national standards and current best practices.

The following agencies/organizations approve respirators and/or criteria for respirator programs:

U.S.: NIOSH approval under 42 CFR 84 required.
OSHA (29 CFR 1910.134)
ANSI Z88.2-1992

EU: CR592 Guidelines for the Selection and Use of Respiratory Protection.
Germany: DIN/EN 143 Respiratory Protective Devices for Dusty Materials.

UK: BS 4275 Recommendations for the Selection, Use and Maintenance of Respiratory Protective Equipment.
HSE Guidance Note HS(G)53 Respiratory Protective Equipment.

Engineering Controls

If user operations generate dust, fumes or mist, use ventilation to keep exposure to airborne contaminants below exposure limits.

Other Protective Measures

None

SECTION IX - Physical and Chemical Properties

Physical State Slurry	Color Milky White	Odor None
Odor Threshold Not Applicable	pH 7.5-7.9	Boiling Point >100°C/212° F
Evaporation Rate Same as water	Melting/Freezing Point 0°C/32° F	% Volatile by Volume Not Applicable
Solubility in Water Dispersible	Specific Gravity 1.024-1.032	Vapor Density Water
Vapor Pressure Water	Reid Vapor Pressure Not Applicable	Water/Oil Distribution Not Applicable
Viscosity <20	Pour Point Not Applicable	

SECTION X - Stability and Reactivity

Chemical Stability Stable	Conditions to Avoid Freezing conditions	Incompatible Materials None
Reactivity Stable	Hazardous Decomposition Nitrogen oxides, CO, CO ₂ gases	Hazardous Polymerization Will not occur

SECTION XI - Toxicological Information

Acute Toxicity Oral (rat): Not tested Dermal (rabbit): Not tested Inhalation (rat): Not tested Skin Irritation: Not tested Eye Irritation: Not tested Carcinogenicity: Not listed as a carcinogen by IARC, NTP, Z List or OSHA. Mutagenicity: Not tested Reproductive Toxicity: Not tested Teratogenicity: Not tested		
Chronic Ingestion Effect None expected	Chronic Eye Effect None expected	Chronic Skin Effect None expected
Chronic Inhalation Effect None known	Sensitization to Material None expected	Synergistic Materials None expected

SECTION XII - Ecological Information

Mobility Oxide component not mobile in soil.	Persistence/Degradability The oxide component of the this material will persist.	Bio-Accumulation This material is not expected to bio-accumulate.
--	--	---

Ecotoxicity**Acute Fish Toxicity:** Not tested.**Acute Daphnia Toxicity:** Not tested.**WGK Water Hazard Class:** Not determined.**SECTION XIII - Disposal Considerations****Legal Classification**

Dispose of in accordance with all applicable National, State and Local regulations. Same considerations should be given to the disposal of empty containers.

As sold, not defined as hazardous waste under U.S. RCRA (Resource Conservation and Recovery Act) regulations.

Waste Key No. Not determined.**SECTION XIV - Transport Information****UN Number**

Not applicable

UN Proper Shipping Name

Non-hazardous/Non-regulated

UN Class

Not applicable

UN Packing Group

Not applicable

GGVS/GGVE/RID/ADR/IMDG-Code/ICAO-TI Information

Not determined

US Rail Regulations

Not determined

SECTION XV - Regulatory Information**National Registries:** All components are in compliance with the inventories below:**Australia:** AICS Australian Inventory List**Canada:** CEPA, Canadian Environmental Protection Act, 6th Amendment, Domestic Substance List.**China:** Inventory of Existing Chemical Substances in China.**Europe:** EINECS, European Inventory of Existing Commercial Chemical Substances.**United States:** TSCA, Toxic Substance Control Act.**Japan:** MITI, Ministry of International Trade and Industry List of Existing Chemical Substances.**Korea:** ECL, Existing Chemical List.**Europe (EU):** This material is not defined as a dangerous substance regarding EU Directive 67/548/EEC and its various amendments and adaptations.**U.S. Clean Air Act, 1990:** No components are listed as hazardous air pollutants. No components contain or are manufactured with Class I or Class II ozone depleting chemicals, as defined in the Clean Air Act of 1990.**U.S. Clean Water Act (40 CFR 116):** No components are listed.**U.S. SARA Title III – Superfund Amendments and Reauthorization Act (SARA)****Section 302:** Does not contain any constituents that are identified as extremely hazardous.**Section 311/312:** Under SARA 311 and 312, the EPA has established threshold quantities for the reporting of hazardous chemicals. The current thresholds are: 500 pounds or the threshold planning quantity (TPQ), whichever is lower, for extremely hazardous substances and 10,000 pounds for all other hazardous chemicals.**Section 311/312 – MSDS Requirements** - Not regulated.**Section 313:** Does not contain any of the substance identified under Section 313 as toxic chemicals in excess of the *de minimis* concentrations necessary to be subject to this rule.**Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, 40 CFR 302):**

This material is not a hazardous substance under the CERCLA. Notification of spills of this material is not required.

SECTION XVI - Other Information**Reference Sources Used**Sax, Irving N. & Lewis Sr., Richard J. *Dangerous Properties of Industrial Materials*, 7th Edition.ACGIH, *Documentation of TLVs and BEIs*, 6th edition.Sax, Irving N. & Lewis Sr., Richard J. *Dangerous Properties of Industrial Materials*, 7th Edition. xCook, Warren A., *Occupational Exposure Limits Worldwide*, 1988.

Revision Indicator

Revised sections of the MSDS will be indicated by an asterisk (*) in front of the section affected.
