EM SCIENCE

MATERIAL SAFETY DATA SHEET (MSDS)

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name:
Hexane

Supplier:
A Division of EM Industries
P.O. Box 70
Gibbstown, N.J. 08027
Hours: 24 hrs a day
Phone: 856-423-6300
Fax: 856-423-6309

Chemtrec Emergency Number:
1-800-424-9300

EMERGENCY OVERVIEW

Hexane is an extremely flammable liquid and vapour. It is toxic by ingestion, inhalation and skin contact. It is a nervous system depressant and can cause respiratory irritation. The following precautions are taken here:

- Hexane is stored in a large steel tank located in the harbor.
- A respiratory protection area is maintained outside the tank, extending 100 feet from the tank.
- The Hexane is for sale as a chemical and is not for residential use.
- Hexane is not used as a solvent for cleaning.
- Only one person is allowed to work with the product at any given time.
- The tank is monitored by a computerized system that ensures the product is kept at the correct temperature and pressure.
- The tank is equipped with a fire suppression system and a water system.
- The tank is located in an area that is free of ignition sources.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a safety staff who are trained in the proper use of the product.
- The tank is located in an area that is not accessible to children.
- The tank is equipped with a security system.
- The tank is located in an area that is not accessible to visitors.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire suppression system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a water system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a emergency shower and eyes wash station.
- The tank is equipped with a waste disposal system.
- The tank is located in an area that is not accessible to the public.
- The tank is equipped with a fire extinguishers.
